

Université d'Alexandrie
Faculté des Sciences, Département de Zoologie
3^{ème} Colloque Méditerranéen de Neurosciences
Alexandrie, Egypte, 13 – 16 Décembre 2009

Dimanche 13:

18-19h Lecture Spéciale d'Ouverture: Synaptic Plasticity and Disease – **Nashaat GERGES (Milwaukee, WI, USA)**

Lundi 14:

9-10h Lecture Plénière I: Local translation of mRNAs and its role in the development and plasticity of the mouse olfactory network – **Alain Trembleau (Paris, France)**

14-15h Lecture Plénière II: Alzheimer and argyrophilic grain disease – **Isidre Ferrer (Barcelone, Espagne)**

16h45-17h45: Lecture Plénière III: Mirror neurons: recent progresses – **Giacomo Rizzolatti (Parma, Italie)**

Mardi 15:

9-10h Lecture Plénière IV: Localization and function of monoamine receptors in prefrontal cortex. Therapeutic implications – **Francesc Artigas (Barcelone, Espagne)**

14-15h Lecture Plénière V: Parkinson's disease: Genetic aspects and insights into physiopathology – **Alexis Brice (Paris, France)**

17h45-18h45 Lecture Plénière VI: A Computational Neuroscience Approach to Attention, Memory and Decision – Making – **Gustavo Deco (Barcelone, Espagne)**

Mercredi 16:

9-10h Lecture Plénière VII: Biological Rhythms: from molecular clocks to human health – **Paul Pevet (Strasbourg, France)**

14-15h Lecture Plénière VIII: The clinical and genetic aspects of autosomal recessive cerebellar ataxia – **Ali Benomar (Rabat, Maroc)**

17h45-18h45 Lecture GRAND PUBLIC:
Neuroarchaeology: presymptomatic architecture and signature of neurological disorders – **Yehezkel Ben-Ari (Marseille, France)**
